## **Highlights Museum Brandhorst. Guided Tour in English**

Museum Brandhorst

“Future Bodies from a Recent Past” brings to life a hitherto little-noticed phenomenon in art and sculpture in particular: the mutual interpenetration of body and technology. After a brief visit of the special exhibition, we take a look at the museum’s high-tech architecture and examine the significance of the corporeal in Cy Twombly’s paintings.

Tour included in the price of admission | Please pick up your ticket at the information desk no later than 15 minutes before the tour starts | To avoid long waiting times, we recommend booking an online ticket | Free tickets for children and young people under 18 years | Please observe the current health protection and hygiene measures.
